Tell me about a time when you've been so bored in an interview that you've fallen asleep.

Make it collaborative

Make it real

Doing strategy together

A black and white photograph of a man in a suit and hat, looking down at a typewriter with a cigarette in his mouth. The man is wearing a light-colored suit jacket, a white shirt, and a dark tie. He is also wearing a light-colored fedora hat. A cigarette is in his mouth, and a pen is tucked behind his ear. He is looking down at a typewriter in the foreground. The background is a plain, light-colored wall.

How will business agility help me deal with Brexit?

# Breaking bread together

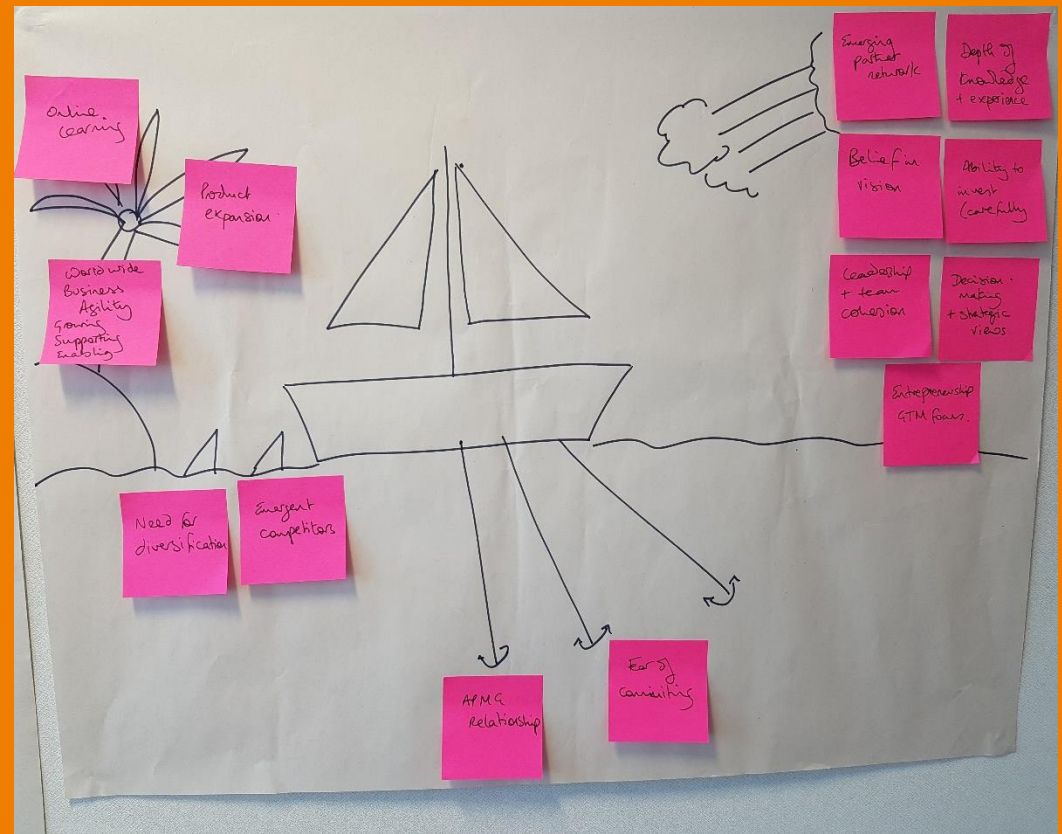

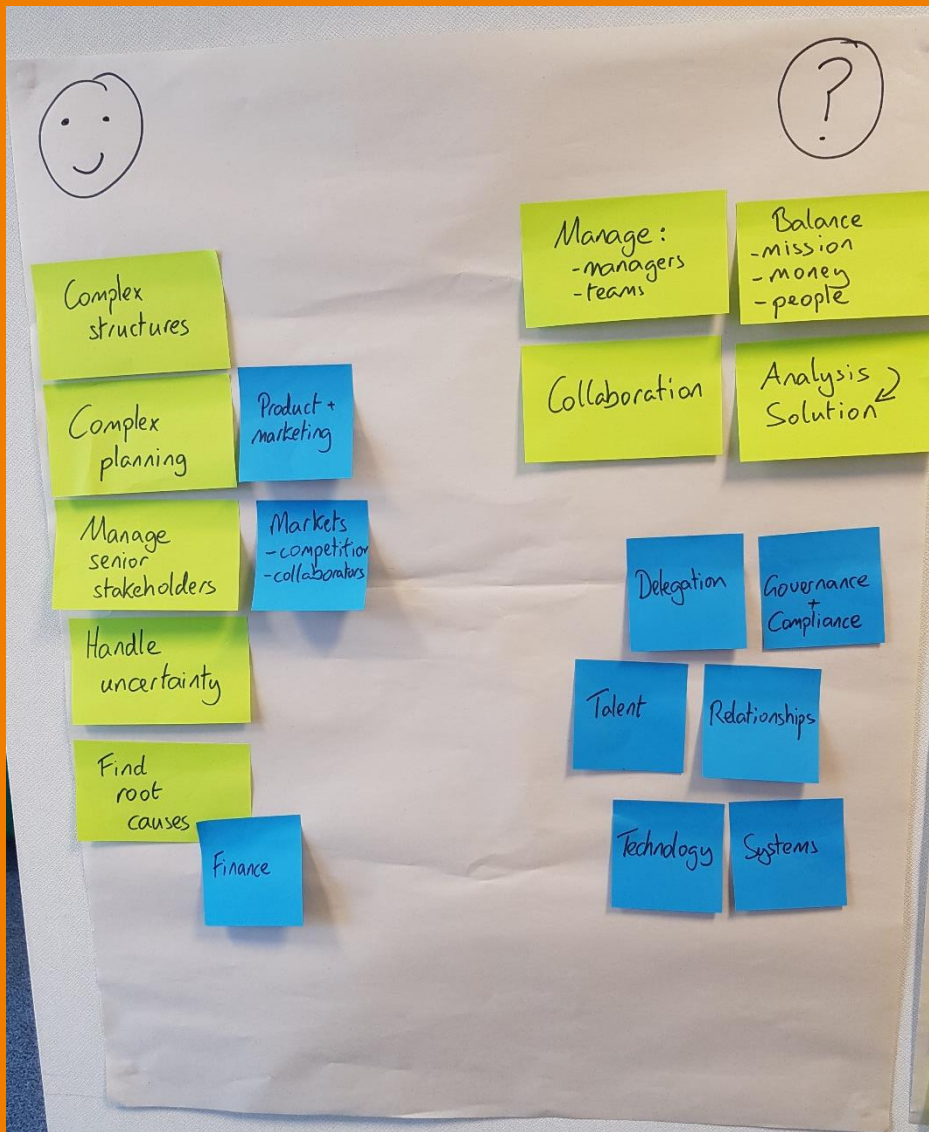

Staff team interview

Speak persuasively for five minutes about something you believe to be true or important, but about which you expect others to think differently.

# The Interview

# What did we learn?

People are more real when context is more real.

Real collaboration is hard to do, but better for everyone.

A little trust allows people to shed some armour.

Who the people in front of us really are.

Meet John

So, what could you change...

...from this...

...to this?
